Gobble some fries along the way and you've got some pepper — just in case. Lead them on a chase and the nasties get stuck together. Tiptoe out onto a bun and they follow in a bunch. PRIME BURGER DATA

THE CHEF You control the chef, PETER PEPPER™.* Move him up ladders and across planks using the joystick or keyboard

controls. Move your chef completely across a bun or other ingredient (lettuce, burger patty, or cheese) and it drops one level. You rack up 50 points.

You start with 5 chefs, but only one can be used at a time. You get an EXTRA CHEF every 10,000 points you score. But you may never have more than 9 chefs at any one time.

NASTIES Hot dogs, eggs, and pickles chase your chef wherever he goes in the maze. If they catch him, the round is over.

All the nasties get quicker as you go along.

MAZES There are 7 mazes constructed of ladders and planks. When you successfully build all the ham-

burgers in one maze, you move on to the next maze. When all seven mazes have been completed, you start over again with the first maze. A hamburger is made up of a top bun, lettuce, sometimes cheese, a burger patty, and a bottom bun.

SQUASHING AND DROPPING Try dropping the ingredients ON TOP of the nasties. You get 100 points for each nasty

you squash. Squashed nasties return from the side of the screen.

FOR MORE POINTS, tempt a nasty out onto a bun or other ingredient and then drop it by stepping off. The ingredient will drop TWO levels. The ingredient will drop one EXTRA level for each EXTRA nasty taking the ride. You score points (consult chart) for each nasty you drop. After a few seconds, dropped nasties return from the point where they land. They may not be dropped again and are not dangerous again until they reappear.

AND A PINCH OF PEPPER

Pepper may be used to temporarily stun nasties if you are trapped. This tactic allows you to move out

of corners unharmed. You can only throw pepper IN FRONT OF YOU. This means you can only throw pepper in the direction you last moved. YOU CANNOT RUN AND THROW PEPPER AT THE SAME TIME.

You start with 5 pinches of pepper which are displayed to the left of the screen. You can earn extra pinches of pepper by gobbling French fries (1500 points) or ice cream (500 points) or gulping coffee (1000 points) when they appear in the maze. You store ONE pinch of pepper for each prize gobbled or gulped. You

have a maximum storage capacity of 9 pinches of pepper.

CLUMPING You may want to use pepper to "clump" the nasties. You can trick them out onto a bun, pepper them, and then drop

them. The nasties will get stuck together in a clump and stay that way for awhile. You may only see one nasty. But every time you drop them, you get points for the whole clump.

Watch out though! They unclump! So take advantage of the situation quickly. NOTE: It is also possible to clump the nasties by leading them around on a merry chase until they all stick together.

SCORE DISPLAY

For a one player game, the running score is tallied in the top left corner of the screen. For a two player game, the score on the left is for player #1 (left controller) and the score on the right is for player #2 (right controller). The score of the player currently controlling the chef alternates color from white to yellow.

The number of chefs a player has is displayed next to the chef's hat. The number of peppers is displayed next to the pepper symbol.

WINNING TIPS!

■ **SAVE PEPPER** for the times you need it most. Don't waste it on nasties that are easily avoided.

■ Try to get the **HIGHEST** point value for **EACH** hamburger part that you drop. Try **SQUASHING** a nasty! Better yet give him a fast ride down on a falling bun!

■ **REMEMBER**, your chef **STOPS** while he peppers a nasty. Don't get blind sided by a marauding pickle while you're busy peppering a hot dog.

■ Keep away from the corners after squashing a nasty. The same nasty could return in that corner and could run right smack into your chef!!!

■ Time it just right and you can drop some nasties and squash others with the same falling bun. The point values will **COMBINE!**
